

Sage User Network Special Interest Day

16 September 2010, Sage Winnersh

Agenda

09.00 Coffee & Registration

09.30 Case study Schiedel Chimney Systems Ltd - upgrade from Line 500 v5 to v7.1
Justin Garrod, e-finite Ltd

Justin will cover the following in some detail:

- Reasons for Upgrade
- Methodology Used and why
- Problems to be overcome including data transfer, OS changes and SQL changes
- Bespoke work
- Benefits

10.30 Coffee

10.45 Your Business Partner is not the only solution Chris Blythe, Chris Blythe Ltd

Chris will discuss the benefits of using consultancy in system upgrades / installs – the good, the bad and the ugly.

11:45 Sage Line 500 / Sage 1000 CBase Bespoke Upgrades
Julian Blumfield, Vection Technology

Take a look behind the scenes as Sage Developer, Vection Technology, explains how standard Line 500 / Sage 1000 version upgrades affect bespoke programs. An overview as to how a bespoke program relates to the standard program will help give a better understanding as to why and when bespoke work needs to be upgraded.

13.00 LUNCH

PLEASE NOTE each of these sessions will be a presentation followed by Q&A / discussion time

**** This agenda may be subject to change ****
